VIP GOLF ACADEMY

ABOUT US

At VIP Golf Academy, we believe that everyone has the potential to be a great golfer. That's why we offer personalized golf instruction from some of the best PGA coaches in the business.

Our instructors have both playing and coaching experience at the highest levels, so they know how to help you improve your game no matter what your skill level may be. We also understand that not everyone learns in the same way, which is why we offer customized golf school programs that are tailored to each student's individual needs.

Whether you're looking to work on your swing mechanics or learn how to read greens like a PGA pro, our team can help you take your game to the next level.

OUR PROGRAM

For over 30 years, VIP Golf Academy has been setting the standard for what a world-class golf school experience should be. Through continuous innovation and a commitment to excellence, we've refined a program that delivers lasting results.

Our proven 5-6 hour daily format is carefully designed to maximize learning while avoiding burnout. Each day includes a 30-45 minute lunch break, allowing students time to recharge and absorb instruction.

Simply put, our golf school program stands apart-and for good reason.

1 MENTAL

Six hours is not too long or too short. Our sports psychologists feel that the 5 to 6 hour day allows for intensive instruction and allows the brain not to lose focus.

2 PHYSICAL

In testing our program, we found the body to be able to withstand the 5 to 6 hour day with not much effort regardless of phsyical condition. Once we go beyond that point, our bodies will fatigue, risking the fall into bad habits and an old swing.

3 RETENTION

The most important part of the golf school is retaining the information, and being able to take it home with your and perform it on the course. Elite instruction is defined by retention. We coach simple, athletic movements that stay with you and translate directly to the course. No overload. No wasted time. Just lasting results.
